Swarm Intelligence: 7th International Conference, ANTS 2010, Brussels, Belgium, September 8-10, 2010 Proceedings (Lecture Notes in Computer Science / Theoretical Computer Science and General Issues)

These proceedings contain the papers presented at ANTS 2010, the 7th International Conference on Swarm Intelligence, organized by IRIDIA, CoDE, Université Libre de Bruxelles, Brussels, Belgium, during September 8-10, 2010. The ANTS series started in 1998 with the First International Workshop on Ant Colony Optimization (ANTS 1998), which attracted more than 50 participants. Since then ANTS, which is held bi-annually, has gradually become an international forum for researchers in the wider field of swarm intelligence. In the past (since 2004), this development has been acknowledged by the inclusion of the term "Swarm Intelligence" (next to "Ant Colony Optimization") in the conference title. This year's ANTS conference was officially devoted to the field of swarm intelligence as a whole, without any bias towards specific research directions. As a result, the title of the conference was changed to "The International Conference on Swarm Intelligence." This name change is already in place this year, and future ANTS conferences will continue to use the new title. This volume contains the best papers selected out of 99 submissions. Of these, 28 were accepted as full-length papers, while 27 were accepted as short papers. This corresponds to an overall acceptance rate of 56%. Also included in this volume are 14 extended abstracts. Of the full-length papers, 15 were selected for oral presentation at the conference. All other contributions, including short papers and extended abstracts, were presented in the form of poster presentations. Following the conference, the journal Swarm Intelligence will publish extended versions of some of the best papers presented at the conference.

From reader reviews:

Rodney Schmitt:

A lot of people always spent their very own free time to vacation or perhaps go to the outside with their loved ones or their friend. Were you aware? Many a lot of people spent that they free time just watching TV, or maybe playing video games all day long. In order to try to find a new activity this is look different you can read some sort of book. It is really fun in your case. If you enjoy the book which you read you can spent 24 hours a day to reading a guide. The book Swarm Intelligence: 7th International Conference, ANTS 2010, Brussels, Belgium, September 8-10, 2010 Proceedings (Lecture Notes in Computer Science / Theoretical Computer Science and General Issues) it is quite good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. In the event you did not have enough space bringing this book you can buy the e-book. You can more easily to read this book from the smart phone. The price is not too costly but this book has high quality.

Alexander Macdougall:

Precisely why? Because this Swarm Intelligence: 7th International Conference, ANTS 2010, Brussels, Belgium, September 8-10, 2010 Proceedings (Lecture Notes in Computer Science / Theoretical Computer Science and General Issues) is an unordinary book that the inside of the book waiting for you to snap it but latter it will zap you with the secret the idea inside. Reading this book alongside it was fantastic author who have write the book in such amazing way makes the content on the inside easier to understand, entertaining means but still convey the meaning completely. So , it is good for you because of not hesitating having this anymore or you going to regret it. This amazing book will give you a lot of gains than the other book have such as help improving your expertise and your critical thinking approach. So , still want to postpone having that book? If I ended up you I will go to the e-book store hurriedly.

Judy Turner:

Do you have something that that suits you such as book? The publication lovers usually prefer to decide on book like comic, short story and the biggest one is novel. Now, why not trying Swarm Intelligence: 7th International Conference, ANTS 2010, Brussels, Belgium, September 8-10, 2010 Proceedings (Lecture Notes in Computer Science / Theoretical Computer Science and General Issues) that give your enjoyment preference will be satisfied through reading this book. Reading routine all over the world can be said as the opportunity for people to know world considerably better then how they react toward the world. It can't be said constantly that reading practice only for the geeky individual but for all of you who wants to become success person. So , for all you who want to start looking at as your good habit, you can pick Swarm Intelligence: 7th International Conference, ANTS 2010, Brussels, Belgium, September 8-10, 2010 Proceedings (Lecture Notes in Computer Science / Theoretical Computer Science and General Issues) become your own starter.

Erin Cummins:

Reading a book to become new life style in this yr; every people loves to examine a book. When you study a book you can get a wide range of benefit. When you read guides, you can improve your knowledge, mainly because book has a lot of information on it. The information that you will get depend on what forms of book that you have read. If you would like get information about your research, you can read education books, but if you act like you want to entertain yourself look for a fiction books, these us novel, comics, and soon. The Swarm Intelligence: 7th International Conference, ANTS 2010, Brussels, Belgium,September 8-10, 2010 Proceedings (Lecture Notes in Computer Science / Theoretical Computer Science and General Issues) provide you with a new experience in reading through a book.
