The Genesi Project: Reviving Faith in the 21st Century Lynn Mostafa

"Are we not still clinging to visions of divinity that are too small?"

Genesi shines the light of 21st Century logic on theology, ecology, psychology, and circumstance, finding (somewhat to our surprise) that the Glory and Diversity of God is still here – and everywhere. We also find a world in great danger and disarray. One that pits religion against religion, tradition against change, and humankind against nature.

This book is intended to be a companion to the scriptures of your heart. It's an ongoing examination of optimistic faith, of humankind's many courageous attempts to make sense of the everyday world and to reconcile it with divinity. Whatever your religion or philosophy, you are cordially invited to an exploration of faith. Come and explore the joy and the mystery, as well as the effects that faith has had and will be having on our beautiful, shell-shocked world.

Includes a set of mental and spiritual tools to build or polish a personal relationship with Spirit. There are lovely chapters on prayer, charity, mysticism, shrines, and other sacred technologies.
