## **Grammar and Vocabulary: A Resource Book for Students (Routledge English Language Introductions)** Howard Jackson

*Routledge English Language Introductions* cover core areas of language study and are one-stop resources for students.

Assuming no prior knowledge, these books offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings – all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections – introduction, development, exploration and extension – which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained.

*Grammar and Vocabulary:*

- covers the core areas of the subject: words and sentences, word classes, word structure, slots and fillers, sentence patterns, clause and phrase, grammar rules, and vocabularies
- draws on a wide range of real texts from newspaper articles, adverts, poems, and websites
- provides classic readings by key names in the discipline, such as Halliday, Quirk, Ayo, and Trudgill.

This is an accessible and user-friendly textbook for all students of English language and linguistics.
