Laboratory Manual for Anatomy & Physiology (5th Edition) (Anatomy and Physiology)

Elaine N. Marieb

Laboratory Manual for Anatomy & Physiology (5th Edition) (Anatomy and Physiology) Elaine N. Marieb

This full-color laboratory manual is designed for instructors who teach a two-semester introductory anatomy & physiology course, but do not require the full range of laboratory exercises found in Marieb's best-selling ***Human Anatomy & Physiology Lab Manuals (Cat, Fetal Pig, and Main)***. Though this lab manual can be used with any two-semester text, it will be most effectively used with Marieb's ***Anatomy & Physiology, Fifth Edition***.

The lab manual features a brand new student-friendly design, including checkboxes to help students track their progress, a complete list of objectives at the beginning of each exercise, and fully-updated terminology in accordance with *Terminologia Anatomica* and *Terminologia Histologica*. The lab manual also features a full-color, extensive Histology Atlas, integrated Review Sheets, and new art and photos that help bring A&P to life.
