Are you frustrated trying to teach school in a traditional way at home? Do your students have difficulty focusing and sitting still? Do you dread school time? Very early on I also became frustrated with homeschooling. I wanted homeschooling to be fun. I wanted to enjoy it. So with much enthusiasm and a startling dose of fear I asked myself two questions: What did my son enjoy? And what was easy and enjoyable for me? The answer was books. Real books, not the dry, unimaginative textbooks that come with sets of curriculum, but fun books from the library or bookstore that were written to engage, inspire and entertain children. Though he wouldn't sit for workbooks, coloring books or sometimes even meals, my son would sit and listen to me read 5 or 6 books in a row. So this is where I began. The following is a list of books that I used for Kindergarten through 8th grade and that I highly recommend. I have chosen only the best and have organized them in what, I hope, is an accessible way. They represent hundreds of hours of research on my part, and thousands of hours of writing and drawing on the part of the authors and illustrators whose works are represented here.
