Risk Management in Banking Joël Bessis

Fully revised and updated from the highly successful previous edition, Risk Management in Banking 2nd Edition covers all aspects of risk management, shedding light on the extensive new developments in the field. There is a new emphasis on current practice, as well as in-depth analysis of the latest in research and techniques. This edition has been expanded to include an in-depth discussion of credit risk models, asset and liability management, credit valuation, risk-based capital, VAR, loan portfolio management, fund transfer pricing and capital allocation. Quantitative material is presented in more detail and the scope of the book has been expanded to include investment banking and other financial services.
