We've helped thousands of students improve their MCAT scores

This MCAT prep book contains 1200 MCAT biology and biochemistry practice questions with detailed explanations that will help you to:

- master important scientific topics and concepts
- assess your knowledge of different biology and biochemistry topics tested on the new MCAT-2015
- improve your test-taking skills
- prepare for the biology & biochemistry portion of MCAT comprehensively and cost effectively

**MCAT Biology & Biochemistry 1,200 Practice Questions by Sterling Test Prep is comprised of all biology topics and many biochemistry topics tested on the Biological and Biochemical Foundations of Living Systems of MCAT-2015.**

Scoring well on the MCAT is important for admission into medical school. To achieve a high MCAT score, you need to develop skills to properly apply the knowledge you have and quickly choose the correct answer. You must solve numerous practice questions that represent the style and content of the MCAT.

Understanding key science concepts is more valuable than memorizing formulas and terms.

The explanations discuss why the answer is correct and – more importantly – why another answer that may have seemed correct is the wrong choice. These explanations include the foundations and details of important science topics needed to answer related questions on the MCAT. By reading these explanations carefully and understanding how they apply to solving the question, you will learn important biology & biochemistry concepts and the relationships between them. This will prepare you for the biology/biochemistry part of the MCAT and will significantly improve your score.

All the questions are prepared by our science editors that possess extensive credentials, are educated in top colleges and universities and have been admitted to medical school with stellar MCAT scores. Our editors are experts on teaching sciences, preparing students for the MCAT and have coached thousands of premeds on admission strategies.
