Community (Key Ideas) Gerard Delanty

The increasing individualism of modern Western society has been accompanied by an enduring nostalgia for the idea of community as a source of security and belonging and, in recent years, as an alternative to the state as a basis for politics.

Gerard Delanty begins this stimulating introduction to the concept with an analysis of the origins of the idea of community in Western Utopian thought, and as an imagined primitive state equated with traditional societies in classical sociology and anthropology. He goes on to chart the resurgence of the idea within communitarian thought, the complications and critiques of multiculturalism, and its new manifestations within a society where new modes of communication produce both fragmentation and the possibilities of new social bonds. Contemporary community, he argues, is essentially a communication community based on new kinds of belonging. No longer bounded by place, we are able to belong to multiple communities based on religion, nationalism, ethnicity, life-styles and gender.
