Frank Sinatra's 45-year recording career and the songs he recorded: his professional biography as a recording artist; the evolution of his vocal technique and performance style; sources and variety of songs recorded; his 12 most-recorded composers and lyricists (20 others are discussed briefly); his interaction with his six major sources of orchestration; his recording sessions; a review of all albums referenced; and the technical and commercial side of his career. Supporting the research are a master song list (approximately 1,250 recordings), songs by publication date, composer and lyricist indexes, every arrangers work (listing each conductor and orchestra), a detailed list of recording sessions--in order--plus radio, television and film work, and three album lists, showing contents, order of first releases, label sequence and producers.
