The Persian Expedition (Penguin Classics) Xenophon

In "The Persian Expedition", Xenophon, a young Athenian noble who sought his destiny abroad, provides an enthralling eyewitness account of the attempt by a Greek mercenary army - the Ten Thousand - to help Prince Cyrus overthrow his brother and take the Persian throne. When the Greeks were then betrayed by their Persian employers, they were forced to march home through hundreds of miles of difficult terrain - adrift in a hostile country and under constant attack from the unforgiving Persians and warlike tribes. In this outstanding description of endurance and individual bravery, Xenophon, one of those chosen to lead the retreating army, provides a vivid narrative of the campaign and its aftermath, and his account remains one of the best pictures we have of Greeks confronting a 'barbarian' world.
