Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library)

Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library)

The research book is focused on the recent advances in computer vision methodologies and innovations in practice. The Contributions include:

- Human Action Recognition: Contour-Based and Silhouette-based Approaches.
- The Application of Machine Learning Techniques to Real Time Audience Analysis System.
- Panorama Construction from Multi-view Cameras in Outdoor Scenes.
- A New Real-Time Method of Contextual Image Description and Its Application in Robot Navigation and Intelligent Control.
- Perception of Audio Visual Information for Mobile Robot Motion Control Systems.
- Adaptive Surveillance Algorithms Based on the Situation Analysis.
- Enhanced, Synthetic and Combined Vision Technologies for Civil Aviation.
- Navigation of Autonomous Underwater Vehicles Using Acoustic and Visual Data Processing.
- Efficient Denoising Algorithms for Intelligent Recognition Systems.
- Image Segmentation Based on Two-dimensional Markov Chains.

The book is directed to the PhD students, professors, researchers and software developers working in the areas of digital video processing and computer vision technologies.

From reader reviews:

Jeffrey Diaz:

The book Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library) can give more knowledge and information about everything you want. Exactly why must we leave the best thing like a book Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library)? Wide variety you have a different opinion about book. But one aim that will book can give many information for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or data that you take for that, you could give for each other; you can share all of these. Book Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library) has simple shape however you know: it has great and large function for you. You can appearance the enormous world by wide open and read a book. So it is very wonderful.

Loretta Cox:

Reading can called thoughts hangout, why? Because if you are reading a book specially book entitled Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library) your thoughts will drift away trough every dimension, wandering in each and every aspect that maybe unidentified for but surely can become your mind friends. Imaging each and every word written in a book then become one form conclusion and explanation that will maybe you never get previous to. The Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library) giving you an additional experience more than blown away your head but also giving you useful info for your better life in this particular era. So now let us show you the relaxing pattern here is your body and mind will likely be pleased when you are finished reading it, like winning a game. Do you want to try this extraordinary investing spare time activity?

Kirk Qualls:

Do you have something that you enjoy such as book? The book lovers usually prefer to pick book like comic, quick story and the biggest some may be novel. Now, why not attempting Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library) that give your entertainment preference will be satisfied by simply reading this book. Reading habit all over the world can be said as the means for people to know world a great deal better then how they react when it comes to the world. It can't be claimed constantly that reading habit only for the geeky particular person but for all of you who wants to possibly be success person. So , for all of you who want to start examining as your good habit, you can pick Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library) become your own personal starter.

Bruce Mull:

As we know that book is essential thing to add our understanding for everything. By a e-book we can know

everything we really wish for. A book is a group of written, printed, illustrated or even blank sheet. Every year has been exactly added. This publication Computer Vision in Control Systems-2: Innovations in Practice (Intelligent Systems Reference Library) was filled in relation to science. Spend your extra time to add your knowledge about your science competence. Some people has different feel when they reading the book. If you know how big benefit of a book, you can really feel enjoy to read a e-book. In the modern era like today, many ways to get book which you wanted.
