# Intelligent Text Categorization and Clustering (Studies in Computational Intelligence)

## Intelligent Text Categorization and Clustering (Studies in Computational Intelligence)

Automatic Text Categorization and Clustering are becoming more and more important as the amount of text in electronic format grows and the access to it becomes more necessary and widespread. Well known applications are *spam* filtering and web search, but a large number of everyday uses exist (intelligent web search, data mining, law enforcement, etc.) Currently, researchers are employing many intelligent techniques for text categorization and clustering, ranging from support vector machines and neural networks to Bayesian inference and algebraic methods, such as Latent Semantic Indexing.

This volume offers a wide spectrum of research work developed for intelligent text categorization and clustering. In the following, we give a brief introduction of the chapters that are included in this book.

### **From reader reviews:**

#### **William Fiscus:**

The publication with title Intelligent Text Categorization and Clustering (Studies in Computational Intelligence) includes a lot of information that you can learn it. You can get a lot of benefit after read this book. That book exist new understanding the information that exist in this e-book represented the condition of the world today. That is important to you to be aware of how the improvement of the world. That book will bring you inside new era of the syndication. You can read the e-book in your smart phone, so you can read this anywhere you want.

#### **Chad Foster:**

The book untitled Intelligent Text Categorization and Clustering (Studies in Computational Intelligence) contain a lot of information on this. The writer explains the girl idea with easy means. The language is very straightforward all the people, so do not worry, you can easy to read that. The book was written by famous author. The author gives you in the new period of time of literary works. You can actually read this book because you can read more your smart phone, or gadget, so you can read the book within anywhere and anytime. If you want to buy the e-book, you can open up their official web-site along with order it. Have a nice learn.

#### **Amy Mueller:**

What is your hobby? Have you heard this question when you got learners? We believe that that problem was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. And you know that little person just like reading or as reading through become their hobby. You must know that reading is very important and also book as to be the point. Book is important thing to increase you knowledge, except your own personal teacher or lecturer. You discover good news or update with regards to something by book. A substantial number of sorts of books that can you take to be your object. One of them is this Intelligent Text Categorization and Clustering (Studies in Computational Intelligence).

#### **Sandra Bryson:**

A number of people said that they feel bored when they reading a guide. They are directly felt the item when they get a half portions of the book. You can choose typically the book Intelligent Text Categorization and Clustering (Studies in Computational Intelligence) to make your own reading is interesting. Your skill of reading expertise is developing when you like reading. Try to choose easy book to make you enjoy to see it and mingle the impression about book and studying especially. It is to be 1st opinion for you to like to open a book and examine it. Beside that the e-book Intelligent Text Categorization and Clustering (Studies in Computational Intelligence) can to be your friend when you're sense alone and confuse in what must you're doing of their time.
