## Aryl Diazonium Salts: New Coupling Agents and Surface Science

Diazonium compounds are employed as a new class of coupling agents to link polymers, biomacromolecules, and other species (e. g. metallic nanoparticles) to the surface of materials. The resulting high performance materials show improved chemical and physical properties and find widespread applications. The advantage of aryl diazonium salts compared to other surface modifiers lies in their ease of preparation, rapid (electro)reduction, large choice of reactive functional groups, and strong aryl-surface covalent bonding.

This unique book summarizes the current knowledge of the surface and interface chemistry of aryl diazonium salts. It covers fundamental aspects of diazonium chemistry together with theoretical calculations of surface-molecule bonding, analytical methods used for the characterization of aryl layers, as well as important applications in the field of electrochemistry, nanotechnology, biosensors, polymer coatings and materials science. Furthermore, information on other surface modifiers (amines, silanes, hydrazines, iodonium salts) is included. This collection of 14 self-contained chapters constitutes a valuable book for PhD students, academics and industrial researchers working on this hot topic.

### From reader reviews:

#### **Silvia McElroy:**

Have you spare time for just a day? What do you do when you have considerably more or little spare time? Yeah, you can choose the suitable activity to get spend your time. Any person spent their very own spare time to take a stroll, shopping, or went to the particular Mall. How about open as well as read a book eligible Aryl Diazonium Salts: New Coupling Agents and Surface Science? Maybe it is to become best activity for you. You realize beside you can spend your time together with your favorite's book, you can more intelligent than before. Do you agree with the opinion or you have other opinion?

#### **Mamie Perkins:**

This Aryl Diazonium Salts: New Coupling Agents and Surface Science are reliable for you who want to be a successful person, why. The explanation of this Aryl Diazonium Salts: New Coupling Agents and Surface Science can be among the great books you must have is actually giving you more than just simple looking at food but feed a person with information that probably will shock your before knowledge. This book is usually handy, you can bring it almost everywhere and whenever your conditions throughout the e-book and printed ones. Beside that this Aryl Diazonium Salts: New Coupling Agents and Surface Science giving you an enormous of experience such as rich vocabulary, giving you tryout of critical thinking that we all know it useful in your day action. So , let's have it appreciate reading.

#### **Stephen Medley:**

Are you kind of stressful person, only have 10 or perhaps 15 minute in your moment to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are receiving problem with the book when compared with can satisfy your short period of time to read it because this time you only find e-book that need more time to be go through. Aryl Diazonium Salts: New Coupling Agents and Surface Science can be your answer since it can be read by an individual who have those short time problems.

#### **Harold Morris:**

You may get this Aryl Diazonium Salts: New Coupling Agents and Surface Science by browse the bookstore or Mall. Just viewing or reviewing it can to be your solve difficulty if you get difficulties for your knowledge. Kinds of this reserve are various. Not only simply by written or printed but also can you enjoy this book through e-book. In the modern era just like now, you just looking by your local mobile phone and searching what your problem. Right now, choose your current ways to get more information about your publication. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose proper ways for you.
